

Spill Stop Berm™ Decontamination Pools—Self Rising

Spill Stop Berm™ Decontamination Pools are ideal for the collection of hazardous runoff associated with fuel tank leaks, truck wheel washing, HAZMAT applications, decontamination and more.

Our decontamination pools are manufactured with durable coated fabrics and are equipped with a foam collar that is self rising, with no assembly required. This decontamination pool offers easy set up, transport and storage.

This self rising berm is perfect for any situation or emergency that calls for fast deployment, including emergencies.

Consider our optional ground cloth for added protection against rough and rocky surfaces.

Rapid response, convenient storage and cost effective!
