PEOPLE

Spill Stop Berm™ Drive-Through Berms with air wall sides and foam wall ends are compact and rapid to deploy. Made to perform in challenging environments and climates.

This design is easy to use and can help to keep you compliant with US EPA Regulations for spill containment. Suitable for oil, chemicals, fuel, runoff from wash down decontamination, and other material hazardous to the environment. Easy drive in/drive out with self rising foam end walls which allows for rapid, ready deployment that is perfect for emergency situations.

The Spill Stop drive-through berm is great for cars, trucks, storage tanks, tanker trucks, military vehicles, and more.

- The durable foam wall ends allow for convenient drive in/drive out capability.
- The drive through berm can be customized to meet your needs.
- Self rising design is ideal for use by first responders.

Rapid response, easy to use and cost effective!
