

Spill Stop Berm™ Foam Wall Berms

Spill Stop Berm™ Foam Wall Berms can be custom built to meet your specific size requirements. They are perfect for military trucks, tankers, tanks, and army vehicles. They are durable and convenient with no breakable parts, and can help keep you compliant with US Regulations for spill containment.

Foam Wall Berm ends can be driven over repeatedly. These berms are easy to clean and store, and are an excellent long term solution for your spill containment needs.

Durable, low profile design, and easy to use!
