Portable Static Pillow Tanks

Collapsible Portable Tanks are designed for a multitude residential, commercial and industrial applications. Ranging in size from as small as 25 gallons to 250,000 gallons they are cost effective for storing all kinds of liquid over short periods or for many years indoors and outdoors.

Our **pillow tanks** are made from heavy duty industrial fabrics which are approved for contact with stored liquids. An MSDS may be required for some chemicals to determine contact times and best materials for the storage application. This ensures correct materials and configuration for each and every project!

Portable Static Pillow Tanks

Typical Specifications for Drinking Water Pillow Tanks

Our portable drinking water tanks are manufactured from first grade materials and all provided with a certificate of fitness upon request. Each tank is warranted for a period of 1 year for workmanship and materials (full warranty details available on request) and certified for storage of approved liquids (an MSDS may be required to ensure complete compatibility).

FABRIC - NSF 61 and FDA Compliant. NSF 61 and FDA Compliant.

CONTACT TIME - 1 year to 7 years *** (Contact times are not an indication of functionality, but rather a point where the fabric may start to change based on weathering or chemical process and has no bearing on longevity of a tank)

FITTINGS - 3/4" thru 2" standard. 4" thru 6" available per request. Aluminum, Stainless steel, Polypropylene with Camlock or threaded fittings to accommodate fuel hoses. Ball valves, pressure relief vent with flame arrestors to specification.

BERM LINER or Rub Pad - We recommend the use of berm liners, rub pads or ground cloths to ensure portable tank longevity.

OPTIONAL - Ports for periodic cleaning and inspections, emergency plugs, repair kits, operational spare parts, pressure relief valves.

PACKAGING - Packaging of these unites is very important dependant on the intended use and mobility requirements. We offer a variety of solutions based on your application like carry bags, totes, wooden treated crates, or as specified (additional costs may apply for packaging).
