

## Spill Stop Berm™ Spill Basins

Spill Stop Berm™ Spill Basins are a flexible and efficient means of secondary containment. They keep your work area clean and safe and can be used to contain drums, cans, small generators, fuel tanks, pumps, pressure washers, and more. Spill Stop Basins are an excellent tool to contain hazardous runoff and small leaks.

**These versatile spill basins are perfect wherever space is limited.**

- The figures displayed show the deployed and storage sizes of our collapsible mini basins.
- Easy folding; simply fold liner and roll around the flexible battens.

**\*\*Easily stows behind the seat back in a pick up truck\*\***
