

Spill Stop Berm™ Spill Berm with Aluminum Angles

Our Spill Stop Berm™ Spill Berms with Aluminum Angles can help you meet US Regulations for spill containment.

Our multi-purpose spill berms are created to retain their performance and flexibility over time. They can withstand any demanding secondary containment need including oil, chemicals, and other materials hazardous to the environment. They can also be used for vehicle containment, drum containment, long term drum or tanker storage, and industrial equipment containment.

This Spill Berm with Aluminum Angles can be easily transported when folded up into their storage bags.

- Versatile construction, with drive in/ drive out ability by removing angles or brackets.

High Capacity, Multi Purpose Spill Berm!
